ADIB - Abu Dhabi Islamic Bank

Why?

Mahmoud Ahmed Said Khalil Ibrahim, a Senior Integration Developer at ADIB, wanted to **strengthen his understanding of enterprise architecture principles and frameworks**. As he progresses towards solution and enterprise architecture roles, he sought a structured approach to aligning business strategy with IT design and delivery, ensuring effective and scalable solutions.

Solution

Mahmoud chose **The Knowledge Academy's TOGAF® Foundation and Practitioner - Foundation training** for its **strong reputation, practical training approach, and experienced instructors**. The course's structured design and use of real-world case studies stood out compared to other options, offering a clear pathway to mastering enterprise architecture frameworks.

Experience

Mahmoud described his experience as **excellent**. The training sessions were well-structured, and the instructor demonstrated deep expertise, presenting complex concepts in a clear manner. He rated the course content **9 out of 10**, highlighting its comprehensive and well-organised nature and strong alignment with real-world enterprise architecture practices.

He also shared that the booking experience was **smooth and well-handled**, with a responsive account manager who ensured all his questions were addressed promptly.

Outcome

The training enhanced Mahmoud's **understanding of enterprise architecture and the TOGAF framework**, allowing him to **apply structured approaches in his projects**. It also supported his team by providing a clearer framework for aligning IT solutions with broader business goals, improving collaboration and delivery effectiveness.

Results

- **Quality of Course Content:** 9/10
- **Trainer Feedback:** Exceeded expectations
- **Booking Experience:** Smooth and responsive
