

# Case Study: Accenture – TOGAF® Foundation and Practitioner Training Success Story

theknowledgeacademy

**Tanya Gricenko**

Consultant  
Accenture

## Why?

Tanya Gricenko, a Consultant at Accenture, **wanted to enhance her enterprise architecture skills** by applying the TOGAF framework effectively. She aimed to apply structured enterprise architecture practices more confidently in her role.

## Solution

Tanya chose **The Knowledge Academy** to complete the TOGAF® Foundation and Practitioner training for its well-structured content and practical insights into enterprise architecture. The course provided structured guidance on TOGAF concepts, its framework, and strategic implementation techniques.

## Experience

Tanya described the training as **excellent** and rated the course content **10 out of 10**. She praised the trainer for providing clear explanations, real-world examples, and scenario-based practice, along with effective exam guidance.

## Outcome

The training **enhanced Tanya's understanding of TOGAF concepts** and their practical application. It also increased her confidence in preparing for the exam and applying the framework in her day-to-day responsibilities.

## Results

- **Quality of Course Content:** 10/10
- **Trainer Feedback:** Exceeded expectations
- **Booking Experience:** Excellent

## Client Testimonial

**Tanya Gricenko** 

Consultant, Accenture

The training was exceptionally well-delivered, with a clear structure, practical scenarios, and a strong focus on real-world applications. It significantly improved my confidence and understanding of TOGAF. I would highly recommend The Knowledge Academy for its quality training and hands-on learning approaches
