

# Case Study: Avantai Fintech – SAFe POPM Training Success Story

theknowledgeacademy | 

**Aditi Rajesh Dalavi**

Product Owner  
Avantai Fintech

## Why?

Aditi Rajesh Dalavi, a Product Owner at Avantai Fintech, was preparing to transition into a new role and wanted to strengthen her understanding of product ownership within the SAFe framework. Her goal was to build a **solid foundation in Agile principles** and gain a qualification that would support her professional growth in a dynamic product environment.

## Solution

Aditi chose **The Knowledge Academy** to pursue the **SAFe Product Owner/Product Manager (POPM)** training after being inspired by her faculty member. Throughout the course, she gained real-world insights and examples that helped her connect Agile concepts to workplace applications.

## Experience

Aditi described the overall experience as excellent. She rated the course content **10 out of 10**, appreciating the trainer's clarity and the relevance of the material. She mentioned that the trainer was polite, engaging, and explained every concept using practical examples that made learning easy and enjoyable.

## Outcome

The SAFe POPM training equipped Aditi with a deeper understanding of **Agile product ownership, backlog management, and value delivery**. It not only supported her career transition but also enhanced her ability to lead cross-functional teams and prioritise business value effectively.

## Results

- **Quality of Course Content:** 10/10
- **Trainer Feedback:** Met expectations
- **Booking Experience:** Polite and helpful

## Client Testimonial

**Aditi Rajesh Dalavi** 

Product Owner, Avantai Fintech

“The training was excellent and helped me understand key SAFe concepts with great examples. The trainer was polite, supportive, and made learning easy. It truly benefited my professional growth.”
