

Case Study: Fortra – CISM Training Success Story

theknowledgeacademy | FORTRA

Sai Naveen Nukala

Test Lead
Fortra

Why?

Sai Naveen Nukala, a Test Lead at Fortra, **wanted to develop a stronger managerial understanding across the CISM domains**. As he was preparing for the CISM exam while managing cybersecurity responsibilities, he needed structured guidance to support his preparation.

Solution

Sai Naveen chose **The Knowledge Academy** to complete the Certified Information Security Manager (CISM) training for its flexible delivery options, comprehensive training materials and cost-effective pricing. The course provided a structured understanding of information security governance, risk management, security programme development, and incident response.

Experience

Sai Naveen described the training as **excellent**. He rated the course content **8 out of 10** and noted that the trainer's strong knowledge exceeded his expectations. He appreciated the clear explanation of CISM concepts and decoding techniques, which improved his understanding of the subject.

Outcome

The training **enhanced Sai Naveen's understanding of the CISM domains** and supported his preparation for the CISM exam. It also helped strengthen his managerial approach to cybersecurity practices.

Results

- **Quality of Course Content:** 8/10
- **Trainer Feedback:** Exceeded expectations
- **Booking Experience:** Good

Client Testimonial

Sai Naveen Nukala

Test Lead, Fortra

“The training was excellent, with clear explanations and practical techniques that improved my understanding of the CISM domains. The trainer was highly knowledgeable and kept the sessions focused and engaging. I would recommend The Knowledge Academy for its flexible training options and quality training.”
