Srinivas Poojari

General Manager – Information Technology
Hindustan Platinum Pvt. Ltd.

Why?

Srinivas Poojari, General Manager of Information Technology at Hindustan Platinum Pvt. Ltd., **wanted to strengthen his knowledge of information security governance and risk management**. His objective was to better align security strategies with business goals, improve incident response planning, and gain deeper insight into compliance requirements and best practices for managing enterprise-level security operations.

Solution

Srinivas chose **The Knowledge Academy's** Certified Information Security Manager (CISM) training due to its comprehensive coverage of CISM domains. The structured curriculum, positive feedback from previous participants, and the flexibility and support offered throughout the learning process made it the right choice for his professional development needs.

Experience

Srinivas described his experience as **excellent**. He found the sessions well-structured, highly informative, and aligned with industry best practices. He rated the course content **9 out of 10** and praised the trainer for delivering clear explanations, practical examples, and encouraging interactive discussions that made complex topics easier to understand.

The booking experience was smooth and efficient, with clear communication, prompt responses to queries, and proactive support throughout the process.

Outcome

The training **significantly enhanced Srinivas's understanding of information security governance, risk management, and incident response**. It provided structured frameworks that he can apply to strengthen the organisation's security posture and improve policy alignment with business objectives. It also enabled a more systematic approach to managing security initiatives.

Results

- **Quality of Course Content:** 9/10
- **Trainer Feedback:** Met expectations
- **Booking Experience:** Smooth and well-coordinated
