IT:U – Blender 3D Modelling for Unity Training Success Story

theknowledgeacademy | IT:U

Nelson Silva

Senior Lecturer and Researcher
IT:U – Interdisciplinary Transformation University

Why?

Nelson Silva, a Senior Lecturer and Researcher at IT:U, recognised the opportunity and **need to re-train academic staff** in 3D modelling and Unity integration. The goal was to refresh their existing knowledge and enhance the team's confidence in using these creative tools for teaching, research, and interactive design projects.

Solution

Nelson chose **The Knowledge Academy** for its responsive communication, comprehensive course content, and flexible group pricing and payment options suitable for academia. The **Blender 3D Modelling for Unity Course** was specifically selected to refresh skills and strengthen the lecturers' ability to deliver innovative, technology-driven learning experiences.

Experience

Nelson described his experience as **very positive**. He rated the training **10 out of 10**, noting that the sessions were delivered by a friendly, knowledgeable, and highly experienced professional. The smooth and straightforward booking process made it easy for his team to participate in the group training.

Outcome

The training brought the lecturers together for a collaborative, in-person learning experience. It helped the team **regain confidence in using both Blender and Unity 3D**, enabling them to integrate these tools more effectively into academic projects and classroom environments.

Results

- **Quality of Course Content:** 10/10
- **Trainer Feedback:** Friendly, knowledgeable, and professional
- **Booking Experience:** Smooth and simple

Client Testimonial

Nelson Silva

Senior Lecturer and Researcher,
IT:U – Interdisciplinary Transformation University

“The training was very well-prepared and professionally delivered. It allowed our lecturers to come together for a hands-on learning experience and feel more confident with Blender and Unity 3D. I would absolutely recommend The Knowledge Academy.”
