

Case Study: JLR – PRINCE2® Foundation and Practitioner Training Success Story

theknowledgeacademy

Kateryna Skrypka

PED Attributes Engineer

JLR

Why?

Kateryna Skrypka, a PED Attributes Engineer at JLR, **wanted to bring more structure to her existing Project Management experience**. She aimed to build a clear and consistent approach to handling projects.

Solution

Kateryna chose **The Knowledge Academy** to complete the PRINCE2® Foundation and Practitioner training after receiving a strong recommendation from a friend. The training provided a structured understanding of PRINCE2 principles, methodologies, and their practical application.

Experience

Kateryna described the training experience as **excellent** and rated the course content **10 out of 10**. She highlighted that the trainer was exceptional and delivered complex concepts in an informative, efficient, and effective manner.

Outcome

The training **helped Kateryna structure her existing knowledge** and provided a clear framework for applying Project Management practices. It also equipped her with the necessary tools to manage projects more effectively.

Results

- **Quality of Course Content:** 10/10
- **Trainer Feedback:** Exceeded expectations
- **Booking Experience:** Smooth and supportive

Client Testimonial

Kateryna Skrypka

PED Attributes Engineer, JLR

“The trainer was absolutely exceptional and delivered complex concepts in a very informative and effective way. The course provided a clear structure to my knowledge and a strong set of tools for practical application. I would highly recommend The Knowledge Academy for its structured approach to training delivery.”
