

Case Study: Leilands un Putnis – CISM Training Success Story

theknowledgeacademy

Alvils Hincs

Development Project Manager
Leilands un Putnis

Why?

Alvils Hincs, a Development Project Manager at Leilands un Putnis, wanted to demonstrate his **practical experience in information security to employers**. He pursued the CISM training to strengthen his professional profile and validate his capability in managing and governing security practices.

Solution

Alvils chose the **Certified Information Security Manager (CISM)** training with The Knowledge Academy for its quick accessibility and the ability to **receive certification within a short time frame**. The training offered a focused learning path aligned with his goal of validating his hands-on experience in the field.

Experience

Alvils described his learning experience as **good** and rated the training **10 out of 10**. He found the training smooth and straightforward, noting that the **content was presented clearly** and in a way that was **easy to follow**. The clarity of the material supported his understanding and **reinforced his existing knowledge**.

Outcome

The training gave Alvils renewed confidence in the practical experience he has built in information security. He shared that completing the CISM training **provided formal recognition of the skills** he has developed throughout his career. It strengthened his ability to present his expertise clearly to employers and **enhanced his professional credibility**.

Results

- **Quality of Course Content:** 10/10
- **Trainer Feedback:** Met expectations
- **Booking Experience:** Smooth and easy

Client Testimonial

Alvils Hincs

Development Project Manager, Leilands un Putnis

“It was great to receive confirmation of my practical experience once again. The course was meaningful and concentrated, and I would recommend it for anyone looking to validate their knowledge.”
