

Case Study: Wood PLC – NEBOSH International General Certificate Training Success Story

theknowledgeacademy | wood.

Fatima Ahmed Obaid Alzaabi

HSE Administrator

Wood PLC

Why?

Fatima Ahmed Obaid Alzaabi, an HSE Administrator at Wood PLC, **wanted to strengthen her technical health and safety knowledge** and gain an internationally recognised qualification. Her goal was to better understand workplace hazards, risk assessments, and control measures, while also improving her ability to support accurate reporting, audits, and safety inspections.

Solution

Fatima chose **The Knowledge Academy's** NEBOSH International General Certificate in Occupational Health and Safety because of its strong international recognition and practical focus on safety management. The course offered structured learning that aligned with her role and supported her professional growth in health and safety.

Experience

Fatima described the training experience as **very positive**. She rated the course content **10 out of 10** and shared that the trainer exceeded her expectations by consistently using practical examples throughout the sessions. The booking process was described as perfect, allowing her to focus fully on learning without any difficulties.

Outcome

The training **strengthened Fatima's understanding of health and safety practices and improved her practical skills**. It increased her confidence in the workplace and enhanced her ability to identify hazards, assess risks, and apply effective control measures as part of daily operations.

Results

- **Quality of Course Content:** 10/10
- **Trainer Feedback:** Exceeded expectations
- **Booking Experience:** Perfect

Client Testimonial

Fatima Ahmed Obaid Alzaabi 

HSE Administrator, Wood PLC

“The training strengthened my understanding of health and safety and improved my practical skills. The trainer provided clear examples throughout the sessions, which made the learning very effective. I would definitely recommend this training to others because it provides valuable safety knowledge that can improve workplace performance and compliance.”
