

# Case Study: Saudi Energy – PMP® Training Success Story

theknowledgeacademy

**Sherwin Garcia Santos**

R&D Engineer  
Saudi Energy

## Why?

Sherwin Garcia Santos, an R&D Engineer at Saudi Energy, was actively **practising project management and wanted to strengthen his knowledge** through formal training. His goal was to gain deeper project management insights and support his professional development.

## Solution

Sherwin chose **The Knowledge Academy** to complete the PMP® Certification Training because of its strong reputation and experienced instructor. The course provided structured learning in project management principles, methodologies, and practical approaches relevant to professional project environments.

## Experience

Sherwin described the training as **wonderful** and rated the course content **10 out of 10**. He shared that the sessions provided valuable insights and engaging learning throughout the course. He also highlighted that the trainer exceeded his expectations and appreciated the excellent and well-organised booking experience.

## Outcome

The training **strengthened Sherwin's understanding of project management concepts** and provided valuable insights through shared experiences and practical discussions. It also enhanced his ability to apply structured project management practices more effectively.

## Results

- **Quality of Course Content:** 10/10
- **Trainer Feedback:** Exceeded expectations
- **Booking Experience:** Excellent

## Client Testimonial

**Sherwin Garcia Santos** 

R&D Engineer, Saudi Energy

“The training was wonderful and provided many valuable insights throughout the sessions. The trainer exceeded my expectations and delivered the course in a highly engaging and professional manner. I would absolutely recommend The Knowledge Academy for the quality of the training and instructor.”
