

# Case Study: Saudi Energy Company – NEBOSH IGC Training Success Story

theknowledgeacademy

**Odike Chigoziri Matthew**

Fire Protection Engineer  
Saudi Energy Company

## Why?

Odike Chigoziri Matthew, a Fire Protection Engineer at Saudi Energy Company, **wanted to strengthen his knowledge of occupational health and safety** and support his professional growth through recognised training. His goal was to improve his understanding of workplace safety practices and apply them more effectively in his role.

## Solution

Odike chose **The Knowledge Academy** to complete the NEBOSH International General Certificate in Occupational Health and Safety training after being influenced by the interactive learning experience and positive feedback from previous learners. The course delivered structured insight into workplace safety, hazard management, and risk control practices.

## Experience

Odike described the training experience as **highly educative** and **engaging** and rated the course **10 out of 10**. He shared that the training was impactful, interesting, and closely aligned with his profession. He also appreciated the practical safety topics covered and the supportive team-building activities during the training.

## Outcome

The training **strengthened Odike's understanding of workplace safety practices** and provided practical knowledge that could be applied effectively in his role. It also enhanced his confidence in carrying out safety responsibilities and supported his professional growth as a NEBOSH-certified professional.

## Results

- **Quality of Course Content:** 10/10
- **Trainer Feedback:** Exceeded expectations
- **Booking Experience:** Smooth and hassle-free

## Client Testimonial

**Odike Chigoziri Matthew**

Fire Protection Engineer, Saudi Energy Company

“The training was highly educative, engaging, and relevant to my profession. The sessions provided valuable knowledge that I can apply directly in my role. The trainer exceeded expectations, and the learning experience was impactful and well structured. I would definitely recommend The Knowledge Academy for its practical and quality training.”
